

ST. ALBANS SCHOOL

SCHOOL REPORT- (2022-23)

The importance of education cannot be overestimated, as it is the key to a bright and successful future of people and its nation. Education sharpens the mental capabilities of the students and helps to draw the best out of them. It develops an inquisitive and creative mind among the students and enables them to contribute to the vast treasure of human knowledge over ages.

St. Albans School is known for its discipline and quality education. It is our firm belief that children deserve a chance to get a quality education, as it is the best way for them to realize their true potential.

Education provides us knowledge of our society, and environment and hones our skills to change them for the better. Education also helps us to develop our own perspective of looking at our lives, prepares us to have our own points of view and form our own opinions on different facets of life.

Humans are natural learners. The challenge, and a primary goal of education, must be to nurture already curious, flexible, creative, and potentially critical thinkers – to keep their natural predisposition for learning alive throughout their school lives and beyond. Many educative class activities, special assemblies, quizzes, and teachers' talks were conducted to make the teaching-learning process more interesting and meaningful. These activities provide the students with relevant educational experiences that nurtures their passions, problem solving abilities, and higher level thinking skills, including critical thinking and creativity.

Talent Hunt and various Inter House Competitions were organized throughout the year. These competitions and activities help in boosting the confidence of students as they learn to express themselves in front of others. Our focus is to provide children with the opportunity to learn and develop, so that they can grow up to be an integral and healthy part of their communities, excel in various fields and bring laurels, whilst evolving as responsible and dedicated citizens of our country.

Events & Activities held in 2022-23 (Pre Nursery, Nursery & KG)
